Read this Patient Information before you start using This Gel and each time you get a refill. There may be new information. This information does not take the place of talking with your healthcare provider about your medical condition or treatment.

#### What is this Gel?

**This is a topical medication used for the relief of pain and inflammation associated with:**

- Musculoskeletal conditions such as sprains, strains, and backache
- Muscle stiffness and spasms
- This Gel contains the following active ingredients:
- Diclofenac Diethylamine (1.16% w/w): A non-steroidal anti-inflammatory drug (NSAID) that helps reduce pain and swelling.
- Thiocolchicoside (0.125% w/w): A muscle relaxant that alleviates stiffness and spasms.
- Linseed Oil (3% w/w): Provides anti-inflammatory and soothing effects.
- Methyl Salicylate (10% w/w): A counterirritant for pain relief.
- Menthol (5% w/w): Creates a cooling sensation to relieve discomfort.
- Benzyl Alcohol (1% w/w): Preservative with antiseptic properties.
- This Gel is for external use only.

#### Who should not use this Gel?

##### Do not use this if you:

Are allergic to any of the active or inactive ingredients in the gel. Have untreated skin infections not indicated for this combination Gel.

#### What should I tell my healthcare provider before using this product?

Before using this product, inform your healthcare provider if you:

- Have a history of allergies to similar medications.
- Have skin conditions that require long-term steroid use.
- Are pregnant or planning to become pregnant.
- It is not known if This Gel can harm your unborn baby.
- Are breastfeeding or planning to breastfeed.
- It is unknown if the active ingredients pass into breast milk.
- Provide a list of all medications you use, including prescription and non-prescription drugs, vitamins, and herbal supplements.

**How should I use this Gel?**

**Use this Gel exactly as directed by your healthcare provider.**

- Apply a small amount of Gel to the affected area and massage gently until fully absorbed.
- Use the Gel 2-3 times daily, or as instructed by your healthcare provider.
- Wash your hands after application unless treating the hands.
- Avoid contact with eyes, mucous membranes, and broken skin. If accidental contact occurs, rinse thoroughly with water.
- Do not cover the treated area with a bandage or apply heat unless instructed by your healthcare provider.
- If you use too much Gel or accidentally ingest it, seek medical attention immediately.

**What are the possible side effects of This Gel?**

**The most common side effects include:**

- Skin irritation, redness, or itching at the application site
- Rash or allergic reactions
- Stop using the Gel and contact your healthcare provider if you experience:
- Severe skin reactions such as blistering or peeling
- Signs of an allergic reaction, such as swelling, difficulty breathing, or severe rash
- These are not all the possible side effects of this Gel. Talk to your healthcare provider or pharmacist for more information.

**How should I store this Gel?**

- Store at room temperature, 68°F to 77°F (20°C to 25°C).
- Do not freeze.
- Keep out of reach of children.

**General information about the safe and effective use of this gel:**

- Do not use this Gel for conditions for which it was not prescribed.
- Do not share this Gel with others, even if they have similar symptoms.
- For more information, contact your healthcare provider or pharmacist, or call.
