Read this Patient Information before you start using this Skincare Brightening Cream and each time you get a refill. This information does not replace talking with your healthcare provider about your medical condition or treatment.

#### What is this Skincare Brightening Cream?

**This Skincare Brightening Cream is a prescription topical medication used for:**

- Skin discoloration or hyperpigmentation, including dark spots, age spots, and melasma.
- Evening out skin tone and reducing the appearance of dark spots on the skin.
- Treatment of fine wrinkles and skin texture associated with aging.

**This Skincare Brightening Cream is not for:**

- Use on broken, irritated, or sunburned skin.
- Treatment of all skin conditions unless directed by a healthcare provider.

#### Who should not use this Skincare Brightening Cream?

**Do not use this skincare Brightening Cream if you:**

- Are allergic to hydroquinone, mometasone, tretinoin, or any other ingredient in the cream.
- Are pregnant, planning to become pregnant, or breastfeeding, unless directed by a healthcare provider.
- Have a history of skin conditions, such as eczema, rosacea, or perioral dermatitis.
- Have open wounds or sunburned skin in the area of application.

#### What should I tell my healthcare provider before using this skincare Brightening Cream?

**Before using this skincare Brightening Cream, tell your healthcare provider if you:**

- Have a history of skin allergies or sensitivity to skin products.
- Are pregnant or planning to become pregnant. Hydroquinone and tretinoin may not be safe for use during pregnancy.
- Are breastfeeding, as hydroquinone and tretinoin may pass into breast milk.
- Are using other skin treatments or products, including moisturizers, sunscreens, or other topical treatments.
- Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

**How should I use this skincare Brightening Cream?**

**Use this skincare Brightening Cream exactly as your healthcare provider tells you.**

- Apply a thin layer to the affected area once daily, preferably in the evening.
- Gently massage the cream into the skin until fully absorbed.
- Wash your hands thoroughly after application unless your hands are the treatment site.
- Avoid applying the cream on open wounds, broken skin, or the eyes, mouth, or mucous membranes.
- Sun protection is essential when using this product; always use a sunscreen during the day, as hydroquinone and tretinoin can increase skin sensitivity to sunlight.

**What are the possible side effects of this skincare Brightening Cream?****Common side effects include:**

- Skin irritation, such as redness, burning, or dryness at the site of application.
- Flaking or peeling of the skin.
- Increased sensitivity to sunlight.

**Rare but serious side effects include:**

- Severe allergic reactions, such as rash, swelling, or difficulty breathing.
- Thinning or bruising of the skin.
- Excessive dryness, swelling, or stinging at the application site.
- Tell your healthcare provider if you experience any side effects that bother you or do not go away.

**How should I store this skincare Brightening Cream?**

- Store this skincare Brightening Cream at room temperature, between 20°C to 25°C (68°F to 77°F).
- Keep the tube tightly closed when not in use.
- Keep this cream and all medicines out of the reach of children.

**General information about the safe and effective use of this skincare Brightening Cream**

- Do not use this skincare Brightening Cream for a condition for which it was not prescribed.
- Do not share this medication with other people, even if they have the same symptoms.
- You can ask your pharmacist or healthcare provider for information that is written for health professionals.

**What are the ingredients in this skincare Brightening Cream?****Active ingredients:**

- Hydroquinone: A skin-lightening agent that helps reduce skin discoloration and dark spots by inhibiting melanin production.
- Mometasone: A corticosteroid that helps reduce inflammation, redness, and irritation.
- Tretinoin: A form of vitamin A that helps to promote skin cell turnover, reduce fine lines, and improve skin texture.

**Inactive ingredients:**

- Cream base
