#### What should I tell my healthcare provider before using this cream?

##### Before using this cream, tell your healthcare provider if you:

- Have or have had a skin infection or skin conditions such as eczema or psoriasis.
- Are pregnant, planning to become pregnant, or breastfeeding.
- Have any allergies to medications, foods, or other substances.
- Are taking any other topical or systemic medications.
- Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

**How should I use this cream?**

**Use this cream exactly as your healthcare provider tells you.**

- Clean and dry the affected area before applying the cream.
- Apply a thin layer of the cream to the affected area and gently rub it in.
- Use the cream twice daily or as directed by your healthcare provider.
- Wash your hands thoroughly after application unless your hands are the treatment site.
- Avoid covering the treated area with bandages, dressings, or clothing unless directed by your healthcare provider.

**What are the possible side effects of this cream?**

**Common side effects include:**

- Mild irritation or burning at the application site.
- Redness or itching of the skin.

**Rare but serious side effects include:**

- Severe allergic reactions, such as rash, swelling, or difficulty breathing.
- Skin thinning, discoloration, or stretch marks with prolonged use.
- Worsening of untreated infections.
- Tell your healthcare provider if you experience any side effects that bother you or do not go away.

**How should I store this cream?**

- Store this cream at room temperature, between 20°C to 25°C (68°F to 77°F).
- Keep the tube tightly closed when not in use.
- Keep this cream and all medicines out of the reach of children.

**General information about the safe and effective use of this cream**

- Do not use this cream for a condition for which it was not prescribed.
- Do not share this medication with other people, even if they have the same symptoms.
- You can ask your pharmacist or healthcare provider for information that is written for health professionals.
