Read this Patient Information before you start using this Medicated Shampoo and each time you get a refill. This information does not replace advice from your dermatologist or healthcare provider.

### What is this Medicated Shampoo used for?

This shampoo is specially formulated to:

- Treat and prevent dandruff and seborrheic dermatitis
- Relieve itchy, flaky, and irritated scalp caused by fungal infections
- Help manage scalp fungal infections such as Malassezia (Pityrosporum)
- Maintain scalp hygiene and support a healthy scalp barrier

### Who should not use this Shampoo?

Do not use this shampoo if you:

- Are allergic to ketoconazole, zinc Pyrithione, or any of the other ingredients
- Have broken, inflamed, or irritated scalp skin unless advised by a doctor
- Are using topical corticosteroids on the scalp unless advised by a healthcare provider

### Who can use this Shampoo?

- Adults and children over 12 years: Safe when used as directed
- Children under 12 years: Use only if prescribed by a healthcare provider
- Pregnant or breastfeeding women: Consult your doctor before use

### What should I tell my healthcare provider before using this Shampoo?

Inform your doctor if you:

- Have a history of allergies or sensitive skin
- Are pregnant or breastfeeding
- Are using other medicated hair or scalp treatments
- Have persistent or severe dandruff or skin conditions

### How should I use this Medicated Shampoo?

- Use exactly as directed by your healthcare provider or as per label instructions.

For Adults and Children Over 12 Years:

- Wet the hair and scalp thoroughly
- Apply sufficient shampoo to produce a lather
- Gently massage into the scalp for 2-3 minutes
- Rinse thoroughly and repeat if necessary
- Use 2–3 times per week or as advised

Important Tips:

- Avoid contact with eyes, mouth, or broken skin
- If contact occurs, rinse thoroughly with water
- Do not use other shampoos immediately after using this medicated shampoo unless advised

### What are the possible side effects?

Common Side Effects:

- Mild itching, dryness, or irritation at the scalp
- Temporary oily or dry hair

Rare but Serious Side Effects:

- Allergic reactions: Rash, swelling, or difficulty breathing
- Hair discoloration (especially if hair is chemically treated or gray)
- Increased hair shedding (usually temporary)
- Stop use and contact your doctor if you experience persistent irritation or an allergic reaction.

**How should I store this Shampoo?**

- Store at room temperature (20°C to 25°C / 68°F to 77°F)
- Protect from light and excessive heat
- Keep the cap tightly closed
- Keep out of reach of children

**General Safety Information**

- For external use only
- Do not ingest
- Do not use for any condition other than what is prescribed
- Do not share this shampoo with others
- If symptoms persist or worsen, consult a healthcare provider

**What are the ingredients in this Shampoo?**

**Active Ingredients:**

- **Ketoconazole:** A broad-spectrum antifungal agent that reduces scalp fungi responsible for dandruff and seborrheic dermatitis
- **Zinc Pyrithione (ZPTO):** An anti-dandruff and antibacterial agent that relieves itching, flaking, and irritation

**Inactive Ingredients:**

- Shampoo base (Purified water, Surfactants, Conditioning agents, Preservatives, Fragrance)
