Neomycin Sulphate 3400 IU

Read this Patient Information before using this ointment and each time you get a refill. This leaflet does not replace medical advice from your healthcare provider.

What is this Ointment used for?

This is a triple antibiotic ointment used for:

- Preventing or treating minor skin infections (e.g., cuts, scrapes, burns, wounds)
- Treating bacterial skin infections caused by susceptible microorganisms
- Providing localized antibacterial protection to aid in faster healing
- This ointment is not effective against fungal or viral infections.

Who should not use this Ointment?

Do not use if you:

- Are allergic to Polymyxin B, Bacitracin, Neomycin, or any other ingredient in the ointment
- Have deep puncture wounds, serious burns, or animal bites (unless directed by a doctor)
- Have a history of hearing loss associated with aminoglycoside antibiotics (e.g., Neomycin)

Who can use this Ointment?

- Adults and children 2 years and older: Safe when used as directed
- Children under 2 years: Use only under medical supervision
- Safe during pregnancy and breastfeeding when used in small amounts and as directed
- What should I tell my healthcare provider before use?

Inform your healthcare provider if you:

- Have chronic skin conditions
- Are using other topical medications or antibiotic products
- Are pregnant, planning pregnancy, or breastfeeding
- Have kidney problems or a history of ototoxicity (hearing issues due to medication)

How should I use this Ointment?

- Use this ointment exactly as directed or as per label instructions.

For topical use only:

- Clean and dry the affected area before applying
- Apply a thin layer 1 to 3 times daily, or as directed
- You may cover the treated area with a sterile bandage if advised
- Wash hands before and after use
- Do not use in the eyes, inside the mouth, or inside the nose

Possible Side Effects

Common side effects:

- Mild redness, burning, or irritation at the site of application
- Temporary itching or rash
- Serious (rare) side effects
- Allergic reactions (rash, itching, swelling, dizziness, trouble breathing)
- Hearing loss or kidney damage (especially with prolonged use or over large areas)

- Stop using and consult a healthcare provider if side effects persist or worsen

How should I store this Ointment?

- Store at room temperature, 20°C to 25°C (68°F to 77°F)
- Do not freeze
- Keep the tube tightly closed when not in use
- Keep out of reach of children

General Information for Safe Use

- Use only on intact skin unless otherwise directed
- Do not use for more than 7 days unless prescribed
- Avoid use on large areas of the body
- Do not share this ointment with others
- If condition worsens or does not improve within a few days, seek medical advice
