

Patient & Product Information

(Ozenoxacin 1% w/w Cream) **Topical Antibiotic Cream**

Active Ingredients:

Ozenoxacin 1.0% w/w

Read this leaflet before you start using this medication and each time you get a refill. This information is not a substitute for advice from your healthcare provider.

What is Ozenoxacin Cream used for?

Ozenoxacin 1% Cream is a topical antibiotic used to treat:

- Impetigo (a contagious superficial bacterial skin infection), caused by:
- Staphylococcus aureus
- Streptococcus pyogenes
- Minor skin infections caused by susceptible bacteria
- It works by inhibiting bacterial DNA replication enzymes, helping to kill the bacteria and stop the infection.

Who should NOT use this Cream?

Do not use if you:

- Are allergic to Ozenoxacin or any of the cream's ingredients
- Have deep or puncture wounds, serious burns, or infections needing systemic antibiotics
- Are younger than 2 months old, unless advised by a doctor

Who can use this Cream?

- Safe for use in adults and children 2 months of age and older
- Pregnant or breastfeeding individuals should consult a healthcare provider before use
- Before You Use Ozenoxacin Cream

Tell your healthcare provider if you:

- Are allergic to quinolones or any topical antibiotics
- Are using other topical treatments on the same area
- Have a weakened immune system or chronic skin conditions

How to Use Ozenoxacin Cream?

Use exactly as prescribed by your healthcare provider. Typically:

- Apply a thin layer to the affected area twice daily for 5 days
- Clean and dry the affected skin before application
- May cover the treated area with a sterile bandage if needed
- Do not apply to eyes, inside the nose, mouth, or vaginal area
- Wash hands after applying (unless treating hands)

Possible Side Effects

Common (but mild):

- Redness, itching, or irritation at the application site

Rare:

- Allergic skin reaction (rash, hives, swelling)
- If any side effects persist or worsen, discontinue use and contact your doctor

How should I store this Cream?

- Store at 20°C to 25°C (68°F to 77°F)
- Do not freeze
- Keep out of reach of children

- Do not use after the expiry date
- Important Safety Information
- Do not ingest or apply inside body cavities
- Do not use for more than 5 days unless instructed
- Do not share this medication with others
- Consult a doctor if there is no improvement after 5 days

What are the ingredients in this Cream?

Active Ingredients:

- **Ozenoxacin** – A non-fluorinated quinolone antibiotic

Inactive Ingredients:

- Cream base
