Read this Patient Information before using this cream and each time you get a refill. This leaflet does not replace the advice of your healthcare provider.

What is this Cream used for?

This cream is specially formulated for the prevention and treatment of skin infections and to promote healing in:

- Minor burns and scalds
- First and second-degree burns
- Cuts, abrasions, and wounds
- Bedsores and ulcers
- Post-surgical incisions
- Diabetic foot ulcers

How does it work?

- Silver Sulfadiazine: Broad-spectrum antimicrobial that kills bacteria and prevents wound infection
- Chlorhexidine Gluconate: Antiseptic that provides additional protection against bacteria
- Aloe Vera: Natural moisturizer that soothes the skin and promotes regeneration
- Allantoin: A skin protectant that helps in cell regeneration and reduces skin irritation

Who should NOT use this Cream?

Do not use this cream if you:

- Are allergic to sulfonamides, silver compounds, or any ingredient in the cream
- Have a known hypersensitivity to chlorhexidine
- Are pregnant or breastfeeding, unless prescribed by a healthcare professional
- Are newborn (less than 2 months old) unless specifically directed by a doctor

Before You Use:

Tell your healthcare provider if you:

- Have kidney or liver disease
- Are taking other topical medications or antibiotics
- Are undergoing treatment for large or deep burns
- Are diabetic or immunocompromised

How to Use This Cream:

- Clean and dry the affected area gently before application
- Apply a thin, even layer of cream to cover the entire affected area
- Use 1–2 times daily, or as advised by your healthcare provider
- A sterile dressing may be applied if needed
- Wash hands before and after application
- Continue use until the wound is healed or as directed

Possible Side Effects:

Common:

- Mild burning or stinging sensation
- Itching or redness at the application site

Rare but Serious:

- Allergic reactions (rash, swelling, difficulty breathing)
- Discoloration of skin or wound area
- Delayed wound healing in some cases
- Discontinue use and consult a doctor if severe side effects occur.

How should I store this Cream?

- Store below 25°C (77°F)
- Protect from light and moisture
- Do not freeze
- Keep out of reach of children

General Safety Advice:

- Do not use on large or deep wounds without medical supervision
- Avoid contact with eyes, mouth, or mucous membranes
- For external use only
- Do not share this medication with others
- If condition worsens, consult your healthcare provider
