

## Patient & Product Information

(Benzalkonium Chloride 0.1% w/w & Zinc Oxide 8.5% w/w Ointment)  
**Topical Antiseptic & Skin Protectant Ointment**

### Active Ingredients:

Benzalkonium Chloride .....0.1% w/w  
Zinc Oxide .....8.5% w/w

Read this Patient Information before using this Ointment and each time you get a refill. This leaflet does not replace the advice of your healthcare provider.

### What is this Ointment used for?

This ointment is formulated to:

- Prevent and treat minor cuts, wounds, and skin infections
- Soothe and protect diaper rash and skin irritations
- Help manage eczema, dermatitis, and insect bites
- Serve as a barrier cream in chafing, moisture-related irritation, and rashes

### How does it work?

- Benzalkonium Chloride acts as a broad-spectrum antiseptic that helps eliminate bacteria and prevent infection
- Zinc Oxide forms a protective layer on the skin, reducing moisture loss and soothing irritation

### Who should NOT use this Ointment?

Do not use if you:

- Are allergic to benzalkonium chloride, zinc oxide, or any component of the formulation
- Have severe or infected wounds without medical supervision
- Are applying near eyes, mouth, or deep puncture wounds

### Before You Use:

- Tell your healthcare provider if you:
- Have any skin conditions, open or oozing wounds
- Are pregnant or breastfeeding
- Are using other topical medications or cosmetics on the affected area

### How to Use This Ointment:

- Gently clean and dry the affected area
- Apply a thin, even layer of the ointment
- Use 1–3 times daily, or as advised by a healthcare provider
- Do not cover with a tight bandage unless directed
- Wash hands before and after application
- Suitable for infants, children, and adults, under guidance

### Possible Side Effects:

#### Common:

- Temporary stinging or mild irritation
- White residue on the skin from zinc oxide

#### Rare:

- Allergic reactions (rash, swelling, redness)
- Persistent skin irritation — discontinue and consult a doctor

### How should I store this Ointment?

- Store at room temperature (below 25°C / 77°F)
- Keep away from direct sunlight and moisture

- Do not freeze
- Keep out of reach of children

**General Advice:**

- For external use only
- Do not use on infected or deep wounds unless prescribed
- Avoid contact with eyes or mucous membranes
- Consult a healthcare provider if symptoms worsen or persist

**What are the ingredients in this Ointment?**

**Active Ingredients:**

- **Benzalkonium Chloride:** acts as a broad-spectrum antiseptic that helps eliminate bacteria and prevent infection
- **Zinc Oxide:** forms a protective layer on the skin, reducing moisture loss and soothing irritation

**Inactive Ingredients:**

- Ointment base
