

## Patient & Product Information

(Fusidic Acid Cream BP (2% w/w))

### Active Ingredients:

Fusidic Acid ..... 2% w/w

Read this Patient Information before using this cream and each time you get a refill. This leaflet does not replace the advice of your healthcare provider.

### What is this Medicated Cream?

Fusidic Acid Cream is a topical antibiotic used to treat bacterial skin infections, including:

- Impetigo
- Infected dermatitis
- Infected cuts, wounds, or abrasions
- Folliculitis and infected eczema
- It works by inhibiting bacterial protein synthesis, effectively stopping the growth of infection-causing bacteria.

### Who should not use this Cream?

Do not use if you:

- Are allergic to Fusidic acid or any of the cream's ingredients
- Have a fungal or viral skin infection (e.g., athlete's foot, cold sores)
- Intend to use it on chronic or deep skin infections without medical advice

### Who can use this Cream?

Adults and Children:

- Safe for short-term use under healthcare supervision
- Suitable for use in infants and elderly with appropriate guidance

### What should I tell my healthcare provider before using this Cream?

Inform your doctor if you:

- Have a history of skin allergies or sensitivity
- Are pregnant, planning to become pregnant, or breastfeeding
- Are using any other topical skin treatments

### How should I use this Cream?

- Clean and dry the affected area
- Apply a thin layer 2-3 times a day, or as directed
- Wash hands before and after use (unless hands are being treated)
- Do not cover with airtight dressings unless advised
- Duration of treatment is usually 7–10 days
- If no improvement is seen within a week, consult a doctor

Possible Side Effects:

Common:

- Temporary irritation, burning, or redness at the application site

Rare:

- Allergic reactions (rash, itching, swelling)
- Contact dermatitis
- Overuse may lead to antibiotic resistance

### How should I store this Cream?

Storage Instructions:

- Store below 25°C (77°F)

- Do not freeze
- Keep out of reach of children
- Use within the expiry date

**Important Precautions:**

- For external use only
- Avoid contact with eyes, mouth, and mucous membranes
- Do not use on large areas or under occlusive dressings without advice
- Not intended for long-term or cosmetic use

**What are the ingredients in this Cream?**

**Active Ingredients:**

- **Fusidic Acid** – A bacteriostatic antibiotic effective against Gram-positive bacteria including Staphylococcus aureus

**Inactive Ingredients:**

- Cream base, Emulsifiers, Preservative

**Note:** This leaflet is for informational purposes only and does not replace medical advice. Always consult your healthcare provider for any concerns regarding your condition or treatment.
