Read this Patient Information before using this cream and each time you get a refill. This leaflet does not replace the advice of your healthcare provider.

What is this Cream used for?

This is a broad-spectrum topical medication used for:

- Treating fungal and bacterial skin infections
- Managing mixed infections (bacterial, fungal, and protozoal origins)
- Reducing inflammation, itching, and redness associated with skin conditions

Who should not use this Cream?

Do not use if you:

- Are allergic to any of the listed ingredients
- Have viral skin conditions like herpes or chickenpox
- Are pregnant or breastfeeding, unless prescribed by a healthcare provider

Who can use this Cream?

- Adults and Elderly: Safe when used as directed
- Children 12+: Use under adult supervision
- Children under 12: Only under medical supervision

What should I tell my healthcare provider before using this Cream?

- Have allergies or skin sensitivities
- Have liver, kidney, or hormonal conditions
- Are pregnant, planning pregnancy, or breastfeeding
- Are using other medications, including OTC and herbal supplements

How should I use this Cream?

- Clean and dry the affected area
- Apply a thin layer 1–2 times daily or as prescribed
- Avoid occlusive dressings unless advised
- Do not use on broken skin or large areas without doctor's advice
- Avoid contact with eyes, mouth, or mucous membranes
- Wash hands after application unless treating hands

Possible Side Effects

Common:

- Mild burning, itching, redness
- Skin dryness or peeling

Rare/Serious:

- Allergic reactions (rash, swelling, difficulty breathing)
- Hormonal effects (especially with long-term use of clobetasol)

In children:

- Risk of systemic absorption may lead to side effects; use with caution

How should I store this Cream?

- Store at 20°C to 25°C (68°F to 77°F)
- Do not freeze
- Keep away from children
